YMCA CAMP MINIKANI

As parents we want to **give our children every opportunity** to grow and develop into the best people they can be. We strive to give them the skills they need to be independent and make good choices. And really, we just want them to be happy. But we can't do it alone. It's the community with whom we surround our kids that makes all the difference. Teachers, pastors, coaches, family and friends create the environment to help us raise good kids.

Summer camp is one of those unique settings that provides positive role models who help shape a child's character. It's an environment where kids from all walks of life come together and learn how to not only get

along, but **develop deep friendships and mutual respect**. Summer camp encourages children to express their individuality and stretch beyond what they thought they could do.

And while this may be tough for us parents to hear, the magic of summer camp is that WE are not there. Under the thoughtful guidance of our carefully trained counselors and staff, children become more independent, develop problem-solving skills and learn how to rely on their own decisions. And the bonus? **Kids have TONS of fun**. Summer camp is one the greatest gifts you can give your children. We hope you'll consider a week or two of camp this summer.

HURRY! Registration for 2016 is already open and spaces are filling quickly. Don't miss out on the fun!

IN GOOD HANDS

EARLY CHILDHOOD EDUCATION

The Y, with a 5-Star rating from YoungStar and National Accreditation Commission for Early Care and Education Programs (NAC), is positioned to be the premier child care facility in the metro Milwaukee area.

SO MUCH MORE THAN CHILD CARE, IT'S A PLACE JUST RIGHT FOR THEM, AND FOR YOU

Ages 6 weeks-5 years

Research shows that when children participate in an early education program, it increases their readiness for primary school. The first six years of a child's life are crucial, it's a time when children develop their mental and social functions at a very rapid pace. This development is greatly influenced by their educational environment.

The YMCA has made a commitment to quality and safety at each of our Early Childhood Education facilities. The educational environment of our Early Childhood Education Centers is complimented by the use of "Creative Curriculum" and Teaching Strategies: GOLD. This program model is considered the highest quality, emergent curriculum for Early Childhood Education. Our teachers focus on learning skills that are necessary for success in school and in life through experiential or "learning through play." Literacy, mathematics, language, cognitive and physical development are a few of the nine categories we focus and assess children on. We strive to meet the developmental needs of each individual child by working in partnership with their families.

WHY CHOOSE YMCA EARLY CHILDHOOD EDUCATION?

- High-quality Program
- 5-Star Rating from YoungStar
- National Accreditation
- Creative Curriculum
- Holistic Educational Approach
- Parent Involvement (Including Parent/Teacher Conferences)

“For our family, the YMCA’s Early Childhood Education Center has been a godsend!

The administrators are compassionate and supportive. I’ve appreciated the diversity offered from the teachers to the children in the program. The YMCA’s commitment to community engagement ensures that children of different races and socio-economic status are given the same opportunities in the same nurturing environment.

I cannot overemphasize the value our family has found in the YMCA Early Childhood Education Center program. The facilities are second to none, the teachers are loving, the community is enriching, and the program is exceptional.”

“Before I joined LIVESTRONG, I didn’t have an outlet that allowed me to really say what was on my mind regarding cancer and how I deal with life afterwards. The first day we shared our stories, I felt very humbled and blessed. It felt so good to know this was a group of people I could be open and honest with because they understood all the different feelings and steps you take to find a cure.

They understand that sometimes you cry for no reason. That every day is a blessing to be alive but every bump you feel on your body sends a particular fear to your mind “What if.” This group understands the numbness you feel when the doctor says “you have cancer.” They know that while a smile on your face is a symbol that you’re staying positive, deep down you might be exhausted and wondering why me.

I wish I would have known about LIVESTRONG sooner!
LIVESTRONG at the Y allowed me to reclaim my body.”

“The YMCA’s Diabetes Prevention Program has been a very positive experience for me. I have lost over 40 lbs since starting the program. My blood sugar levels are better and I feel fantastic. I came to realize my diet was loaded with fat and my food portions were too large. My lifestyle coach taught me about reading labels, making healthier choices and having a more balanced diet. The support, ideas, and encouragement of the other participants helped me achieve my goals. A lifestyle change can happen, even at the age of 50! I have since joined the YMCA. Thank you YMCA, I couldn’t have done it without you.”

YMCA’S DIABETES PREVENTION PROGRAM

MEASUREABLE PROGRESS, UNLIMITED SUPPORT

You can reduce your risk for type 2 diabetes and gain tools for healthy living.

DID YOU KNOW?

- About 86 million American adults have prediabetes.
- People with prediabetes are likely to develop type 2 diabetes within 10 years, unless they take action to prevent or delay the disease.
- Diabetes is a leading cause of heart disease, stroke, blindness, kidney disease and nerve disease.

THE GOOD NEWS...

The YMCA’s Diabetes Prevention Program helps those at high risk of developing type 2 diabetes adopt and maintain a healthy lifestyle by eating healthier, increasing physical activity and losing a modest amount of weight in order to reduce their chances of developing the disease. Research by the National Institutes of Health has proven that programs like the YMCA’s Diabetes Prevention Program can reduce the number of cases of type 2 diabetes by 58%.

ABOUT THE PROGRAM

In a classroom setting, a trained lifestyle coach will help facilitate a small group of participants in learning about healthier eating, physical activity and other behavior changes over a 12-month period, beginning with 16 weekly one-hour sessions followed by one-hour monthly sessions for added support to help them maintain their progress.

Program Goals:

- Reduce body weight by 7%
- Increase physical activity to 150 minutes per week

WHO CAN PARTICIPATE?

In order to qualify for the program, you must be at least 18 years old, overweight (BMI > 25)* and at high risk for developing type 2 diabetes indicated by a confirmatory blood value†, prediabetes determined by clinical diagnosis of Gestational Diabetes (GDM) during previous pregnancy, or a qualifying risk score.

*Asian individual(s) BMI > 22

†Individuals who have already been diagnosed with either type 1 or type 2 diabetes do not qualify for this program.

TAKE CONTROL OF YOUR HEALTH

There are many factors that determine if you are at risk for type 2 diabetes – lifestyle, age, family history and weight to name a few. Take the first step toward controlling your health – visit ymcamke.org to take a short quiz and learn your risk.

Schedules for the YMCA’s Diabetes Prevention Program are forming now.
