

Subject: YMCA Update on Programs at Parklawn

Good afternoon,

I wanted to share with you an update on the YMCA programs at Parklawn.

As you recall, beginning on Dec. 1, 2018, we began shifting Parklawn from a branch to a **program-centric model**. Since that time, senior leadership has had countless discussions with Parklawn community members and leaders, elected officials, the Housing Authority of Milwaukee and Central City Cyberschool to ensure Y programs continue to thrive within the community. On June 1st we will enter the second phase of this shift as the Housing Authority of Milwaukee's Parklawn tenant, Central City Cyberschool, expands into a high school at this location.

The Y has secured space in collaboration with HACM and Cyberschool to **continue** to operate active older adult programming and summer day camp within the Parklawn community. We plan to keep exploring partnerships within the Parklawn community for programs and services.

I look forward to continuing this evolution and appreciate all your hard work in supporting our mission and vision to get there.

In service,

Carrie Wall

President & CEO
